

The Learning Hub

The Learning Hub is a free collection of online educational resources.

Access to all resources is available for general practice staff in Lambeth, Lewisham and Southwark.

Contact us to register

Please provide your full name, email address and name of your practice surgery.

Below is a selection of our resources. Click to learn more.

Mind and Body Healthcare

Short video and tutorial on how physical and mental health interact. Includes example patient journeys.

Addressing Obesity in a Consultation

How to broach weight-loss sensitively and effectively, and devise a patient-centred action plan to improve dietary and exercise habits.

Dementia Courses

An extensive choice of short modules, from basic introductions to advanced courses in managing non-cognitive symptoms.

Alcohol and Mental and Physical Health

Interactive introduction to alcohol and its impact on physical and mental health. How to detect harmful use and improve outcomes.

Deaf Awareness in Healthcare

Video scenarios showing the obstacles deaf and hard of hearing patients face, and practical ways to improve communication.

Working with People with Intellectual Disabilities

Ideas for small but effective adjustments that can help people with intellectual disabilities access services.

Diabetes Courses

Self-paced modules to improve patients' adherence to medication and help detect related problems, including eye disease and depression.

Maudsley Care Pathways for Older Adults

An online tool mapping interventions and treatments for older adults with anxiety, dementia, personality disorder, depression or psychosis.

Supporting Placement Students in the Community

Video-rich resources to help conduct effective student tutorials, including teaching clinical decision making and behaviour change skills.

The Learning Hub welcomes your ideas for new online resources and can help you create or commission the best possible materials to help your team develop and excel.

Please contact khlearninghub@kcl.ac.uk or call **0207 188 7188 x54122** to discuss your ideas.
